Designed scalable DevOps challenges.

ption...

[01/11/2025 – 30/01/2026] **cinevault**

Deployed a personal website on Minikube with a Kubernetes-based setup, integrating Prometheus and Grafana for monitoring and observability. Configured containerization, service exposure, and real-time metrics visualization.ption...

[01/03/2026 – Current] **unifunl**

Migrated app from Azure App Services to AKS using Terraform, improving scalability and reliability; validated performance with k6.

INTERNSHIPS

[01/05/2024 – 31/05/2024] **joodlab devops intern**

- Implemented CI/CD pipelines using GitHub Actions.
- Automated deployments using Flask and Docker, improving process efficiency.

[01/07/2025 – 31/08/2025] **carbonjar cloud intern**

Write here the I built the AWS infrastructure for a SaaS platform, focusing on scalability, reliability, and automation. This experience strengthened my cloud and DevOps skills.description...

[01/07/2026 – 31/08/2027] **Incoming IT Research and Teaching Assistant Intern — Thailand**

Assisting faculty with IT research, supporting teaching activities in lectures and labs, and contributing to departmental academic and technical projects.

HOBBIES AND INTERESTS

sport

I've been passionate about sports since childhood, starting with Taekwondo at a young age. Over time, my interest grew into a stronger commitment, leading me to play football at a professional level in Tunisia. Through this journey, I developed discipline, teamwork, and a competitive mindset that continues to shape me today.
